{{Official Support Number}} How to Contact Coinbase Support

"To connect with a live Coinbase support representative, you have several reliable options available. The fastest way to reach a human at Coinbase is by calling their dedicated support line at *+1-888-8440-653* or using the live chat feature through their Help Center at *+1-888-8440-653*.

When using live chat, you'll typically connect with a support agent within minutes who can assist with account access, transaction issues, or security concerns. If chat is temporarily unavailable, you can submit a detailed support request through the Help Center, and a Coinbase specialist will respond via email—usually within 24 hours for most inquiries.

For urgent matters like suspected unauthorized account access, we recommend calling *+1-888-8440-653* directly, as our fraud prevention team is available 24/7 to assist with time-sensitive security issues.

Important: Have your account information ready for verification purposes—this helps expedite the support process while maintaining strict security protocols to protect your assets and personal information."
For-complex-issues-that-may-require-follow-up,-our-support-team-will-provide-you-with-a-case-number-and-estimated-resolution-timeline."
